

Q2/2025 PARTS PROMOTIONS

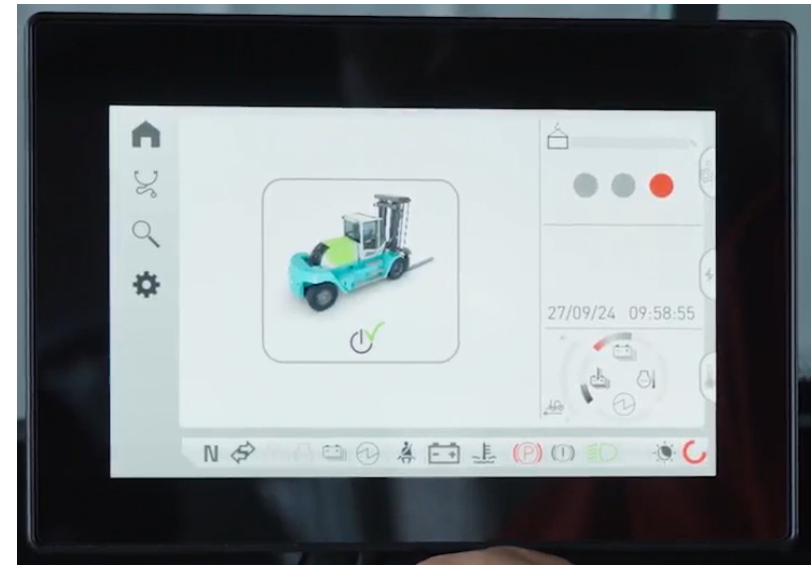

# It's all about Productivity

## Ensure your Control System is up-to-date

Did you know that the MDL2 electronic control unit has become obsolete and is no longer supplied or updated? Repairing old electronic control units is difficult, time-consuming, and often unreliable.

It's crucial to ensure you have a safe and reliable control system on your Konecranes lift truck(s). We have developed a solution to easily replace the outdated MDL2 with the new, state-of-the-art MD4 control unit.

## Why upgrade your Control System to MD4

- Newer and bigger display: enjoy a modern user experience with an improved interface.
- Faster repairs: the MD4 can be supplied much faster, and its software is always updated to the latest versions. In case of repairs, the lead time is significantly reduced.
- Enhanced integration: options like the reverse camera can be fully integrated into the MD4 display, eliminating the need for multiple screens in the cabin - not possible with the MDL2.

Don't wait until it's too late. Upgrade to the MD4 control unit now to ensure your lift trucks operate efficiently and safely.

## How to order

Send the lift truck's serial number(s)\* to your Konecranes Lift Trucks distributor to receive an offer for the complete package including a **15% extra discount** for orders placed by the end of June 2025.

## GET YOUR LIFETIME ADVANTAGE

After you purchase a Konecranes lift truck, we offer you far more than just after-sales service. You can get resources for truck maintenance, fleet management, investment growth and safety enhancements, all backed up by a dependable support network. Because this is available to you for the entire life cycle of your equipment, we call it the Konecranes Lifetime Advantage. It's a better experience.

# Maximize your lift truck operation time

Reducing maintenance time and costs is always a welcome improvement, right? So why are you still manually lubricating the main greasing points of your lift trucks? The Konecranes Automatic Greasing System provides automatic, direct-line lubrication for a wide range of Konecranes lift trucks.

## Automatic greasing system

This system helps you avoid the risk of missing greasing points, which can lead to undesired mechanical blockages in the joints.

If your lift truck wasn't ordered with automatic greasing from the start, don't worry. You can retrofit it now at a very special price.

### How to order

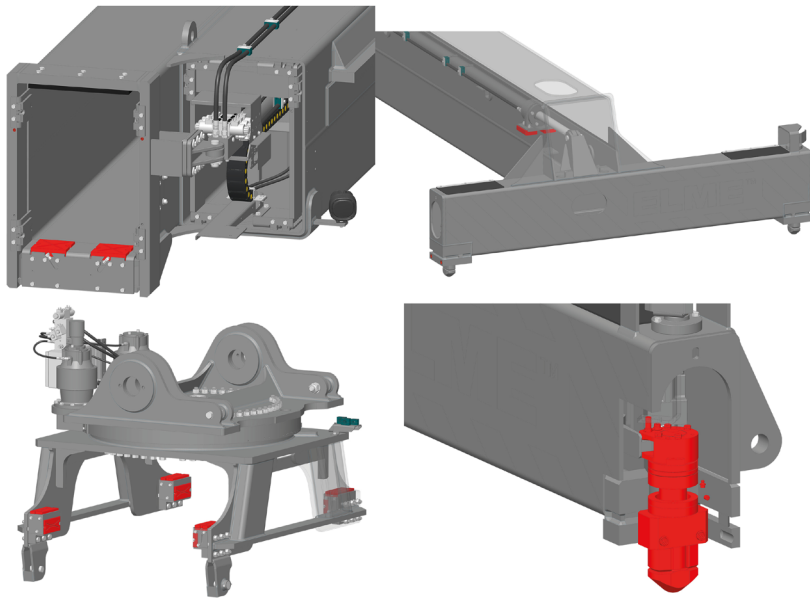

Send the lift truck's serial number(s) to your Konecranes Lift Trucks distributor to receive an offer for the complete package including a **20% extra discount** for orders placed by the end of June 2025.

## Avoid unexpected service breaks

Few things affect productivity as much as unexpected service breaks.

With Konecranes Spreader kit 5000, the risk of twistlocks failures is minimized by scheduling spreader maintenance every 5,000 working hours. This reduces downtime related to spreader faults and ensures safe container handling.

### PARTS PROMOTIONS

Lifetime Advantage parts promotions encourage you to stock up on genuine Konecranes parts to ensure the maximum reliability and performance of your Konecranes lift trucks. Designed for Konecranes equipment, they can be guaranteed to meet or exceed all required standards.

## Spreader kit 5000

The package includes four twistlocks kits along with the necessary wear pads.

Plan your spreader maintenance every 5,000 hours and avoid accidents due to twistlocks fatigue, reduce the risk of machine stoppages for single wear pad replacements, and have the right parts ready in stock to minimize downtime as much as possible.

### How to order

Send the lift truck's serial number(s) to your Konecranes Lift Trucks distributor to receive an offer for the complete package including a **20% extra discount** for orders placed by the end of June 2025.
